Punch (pənʃ), *sb.*[3] (Also 7 punsh, punsch.) [*Note.* As to the origin of the name *punch*, Yule thought that 'there is something of Indian idiom in the suggestion of Fryer'. But there are serious difficulties. The word for 'five' in the Indian vernaculars, Hindī, Gujarātī, Marāthī, etc., is *pāch* (in Anglo-Indian formerly spelt *panch*), while the drink has uniformly been *punch*, and not by Fryer spelt *paunch* and, only to support the alleged derivation. The combining form of *pāch*, however, is *pancha-*, with short *a*: ? = Beng. *ā* in *bāt*, as in Hindī *panchāmrit* a mixture of five substances, *panchbhūta* a union of five ingredients, *panchgirya* the five products of the cow, etc.] and it has been suggested that *punch* may have been short for some such compound, as, in fact, *panchkhāṇ* 'a compound of five' has been colloquially shortened to *panch*, Fryer 26.' But the history of English pronunciation shows that *punch* was in the early 17th c. pronounced not with the *u* in *pull*, but with the *u* in *pull*, *pull*, so E. still is in the words of England, and was by Dr. Johnson ('Who's for Punch?': see Punch-bowl, quot. 1711) which is confirmed by the 17th c. foreign rendering *ponts*, *ponts*, *ponsch*, etc. Now *ponch*, as pronounced, does not represent either *pāch* or *panch* in Indian language; which makes its origin from that source improbable. Moreover, the number of ingredients does not seem to have been at any time so fixed as to give origin to a name; arrac rarely enters, give four, sometimes three, sometimes five or more; it has been tried by me 'five', but the fifth has been very variously specified. As several early passages show that punch was especially a seaman's drink, the Rev. C. E. Shaw has suggested that the name originated not in India, but on the way thither, and may have been a sailors' shortening of *panchayet*, as that to which sailors would look for their allowance of liquor. See *N. & Q.* 12th s. IV. 401, 18 Nov. 1905, and subsequent articles to 27 Jan. 1906.]

Punch (*punʃ*), *sb.*[3] and *a.* Now chiefly *dial.* [Of uncertain origin. No words certainly related are found outside English.

It has been suggested that it is short for Puncheon[1]; cf. Sax. *dial. puncon* a cask, also a short thick person or thing (Wedgwood); also that it is connected with Bunch, Pot so Puppy, in spain. 1889 in Puncheon 2, and in A here, records the use of both *Punchinello* and *Punch* as appellations for a short and thick person or thing, it is highly probable that *Punch* in this sense, as well as in the town sense, was in its origin short for Punchinello. As it is not certain whether the *sb.* or adj. was the original, the senses are here arranged chronologically, as the hypothesis that the adj. was an attrib. use of the *sb.* A, and that an ellipsical use of the *sb.* gave rise to the senses here *sb.* C.]

[*Note.* There is every probability that the Eng. *polichinelle* and F. *polichinelle* are derived from the Neapolitan word, and that *Punchinello*, although evidenced somewhat earlier, and actually given (prob. in error) as the name of the puppet-showman, was an English alteration. The Italian word is used in the *Pentalogia Napolitana* of 1683, as the stereotype of the name of a comedian *Pompeo d'Arnolfo*, originally a peasant of Aversa, whose uncouth physiognomy is said to have served as the model for the mask of the character; another conjecture cites the name of one *Paolo Cinella*, said to have been a buffoon at Naples. Nothing adds these legendary conjectures, a hint been pointed out that It. *pulcinella* is dim. of *pulcino* chicken, and according to Quadrio and Ravani, cited by Pitrè in *Usanze, Credenze, delle Sicilie* (1913), to the Neapolitan *dial. pollecenella* is dim. of *pollecene*, the young of the turkey-cock, on the hooked bill of which the nose of the mask bears a resemblance.]

OE. *punt* was, from its vocalization, prob. an ancient word, representing a survival of the Latin word in Britain; but it may have been only in local use to which also it seems to have continued during the ME. period, though no example has yet been noted. But *punt-boat* is found in the Maldon (Essex) Records of 1320-40 as a current word, and it is noteworthy that the history can begin with Pytheas, a native of that county, who in his translations uses it, evidently as a familiar term, to render various Latin words, e.g. *cimba*, *navis*, *ratis*, *scheda*, *scapha*, *cymba*.]

Punt, *v.*[2] [Goes with PUNT *sb.*[2] History obscure: prob. in origin a dialect word.

In Northamptonsh., *punt* appears as a variant or modification of *bunt*, a word widely used in midland and southern districts, from Cheshire to Kent, and Devon to St. Anglia, in the sense 'to push, butt, strike with the head, horns, or foot, to bump, raise, lift up'. Miss Baker's Glossa. *Northamptonsh. Words*, 1854, has *bunt* 'to kick or strike with the foot'; *punt* 'to push with force, to raise by a push: to push with the head as a calf does a cow'. These words appear to be combined variations of BUNT and PUT (in its original sense), prob. of onomatopoetic origin or modification.]

Pupil teacher (*pū'pĭl,tī·tʃəɹ*). A boy or girl preparing to be a teacher, who spends part of the period of preliminary education in employment as a teacher in an elementary school under the supervision of the head teacher, and concurrently receives general education either from him or in some place of higher education.

The system was introduced into England from Holland in 1839-40, the pupil teachers being originally bound as apprentices, a plan which came to an end after 1870. The system has undergone many changes: in January 1900 it was to be fought in a *Memorandum on the History and Prospects of the Pupil-Teacher system*, issued by the Board of Education in that year.

1846 DR. KAY in *4th Ann. Rep. Poor Law Comm. App.* B. No. 3. 250 In the normal school at Saarlem...certain of the most intelligent scholars...were selected to be trained to the occupation of teachers...These pupil teachers would constantly acquire a greater degree of skill and knowledge. 1846 *Min. their general situation. (Introduced as 'Central Classes' about 1874; much developed 1888–98.)

'a dog used as a plaything', a toy dog'; a sense unknown to French. The *doll*- and *woman*-senses of F. *poupée* are usually represented in Eng. by PUPPET *sb.* 1, 2. But *puppet* and *puppy* are not always distinct: *puppet* (sense 4) was in early use synonymous with *puppy* (sense 1 or 2), and in dialects *puppy* is still widely used in the sense of *puppet*, esp. in *puppy-show* for *puppet-show*.

2. From the middle of the 14th c., sometimes applied (in Law French) to the piece or tract of land between the wider bounds of a forest and the restricted bounds as fixed by perambulation, and then passing into the sense of PURLIEU, q.v.

The exact history of this vocalic of sense is not evidenced; it was prob. at first an incorrect popular use of the term; but it appears as here (was already established before 1225 (when the L. *perambulatio* appeared in the same sense), and then within ten years of the date at which Robert of Brunne used *parale* in the original sense. *English* examples have not yet been found before 1281, when the word evidently appears as PURLIEU; but *parailles*, *pouralles*, was used by Norman and by other legal writers as identical with *pourlieus*, and the form *parelys* has come down from the 16th c. to modern times in the verb *perlambate* as variant and spoken form of PURLIEU-MEND, q.v.

The appellation appears to have been intended to suggest that of the *Καθαροί*, Catharans, or Catharists, assumed by the Novatian heretics, and thus to convey an odious imputation.]

A. *sb.*

1. *Hist.* A member of that party of English Protestants who regarded the reformation of the church under Elizabeth as incomplete, and called for its further 'purification' from what they considered to be unscriptural and corrupt forms and ceremonies retained from the unreformed church; subsequently, often applied to any who separated from the established church on points of ritual, polity, or doctrine, held by them to be at variance with 'pure' New Testament principles.

According to Shaw (see quot. 1571) *the name* was (? originally) assumed by congregations of Anabaptists in London; but this is probably an error, for otherwise it appears to early use always as a term of reproach used by opponents, and assumed by those to whom it was applied: see quot. from Fuller 1655. Its application changed with time and the course of events. Originally it was applied to those within the Church of England who demanded further reformation, especially in the direction of Presbyterianism; afterwards, naturally, to the same party when they were separated from the Church, and became the anti-episcopal Presbyterians, Independents, or Baptists, and consequently to the typical 'Roundheads' of the Commonwealth period, whose puritanism was sometimes little more than political. In later times, the term has become historical, without any opprobrious connexion, and has even, from its association with *purity* and *pure*, come to be resumed by those who in opinion agree more or less with the early Puritans, as a name of honour.

1565 *Stone in Three* 1566 *C. CARTWRIGHT *Reply to W. Whitgift* 33 If these reasons, that these are Puritanes or Catharists, which do not hold a true and perfect pattern or platforme of reforming the church, then the marks of thys heresie conteineth vnto them, which marke the books of ecclesiast pastors. 1573 G. 2. Applied, chiefly in reproach or ridicule, to one who is, affects to be, or is accounted extremely strict, precise, or scrupulous in religion or morals.

The early Puritans were in many cases characterized by the prominence which they attached to personal religion, and by strictness and gravity of behaviour, with observance of forms and manners; hence it was easy to look upon a 'puritan' as one who professed a higher standard of personal religion and morality than was usual.

[*Note.* The various senses above have been treated together rather for convenience, as all relating to the description of apparel, than from any certainty that they are all one of the same word. The derivation of sense 3 seems clear. That sense 1 had the same origin is possible, if the twist given to the minute loops was the characteristic. Or it may be that, as the *pearl* edging of lace, etc. had a similar ornamental use to that of gold and silver purl, the name was extended from the one to the other ; the possibility of this appears to be shown by Cotgrave's inclusion of both as renderings of F. *cannetille*, in quot. 1611. The connexion of brackets II. and III. is much more difficult to explain, and their inclusion must be considered as merely provisional ; the latter may very well be a distinct word, and perhaps better spelt as *pirle* to *pearl*. Members in his Doctor suggested that *purle* was the same word as PURFLE, but this is historically as well as phonetically unlikely.]

[Exemplified in 1482 in the form *purlieu(e)*, app. an erroneous alteration of *purley*, syncopated from *parvaley*, the natural Eng. spelling (cf. *alley*, *ally*, *array*) in the 13th c. of A.F. *parrail*, *-aile*, taken in its transferred sense (Parallel 1).

For the history of *parrail*, *-aile* 'parcel' in English between *c* 1330 and 1482, evident evidence is wanting; in Anglo-French documents it continued to be written *parrail*, *parraile* (examples of which, of 1310–15, in the sense 'portion' appear under Parallel 1); but, as an English word, it would naturally become *parvaley*, *parvaly* (*parvaile*, *parvale*), and easily be syncopated to *parvle*, *parvle*, as in 1482 given in the title 1. and later, esp. in the north, *parlyament*, which shows that this was the pronunciation even after the spelling was changed. *Purlew* may have originated in a 'trifling' error, or as a pseudo-etymological spelling, erroneously associating the word with *law*, *ley*, Lat. *placit*; esp. if *Bill* not suppose to be Fr. *île* Sans, when it was prob. taken over from Eng., and Galloised as *purlieu*: see quot. 1552.]

L. *purpura* *sb.* fem.; thence in early ME. *purpre*, coinciding with OF. *porpre* (mod. *pourpre* = Pr. *porpra*, *porpra*, Sp. *purpura*)—L. *purpura*, whence learned F. *purpure*; also in ME. *purper*, *purpar*, and in 14th c. *purpure*, orig. with -e silent, but at length associated with the suffix -ure, which has attracted various endings, as in *nature*, *pleasure*, *culture*. Cf. OHG. *purpura*, ON. *purpur*, Goth. *paurpaura*, *-aura*, all from L.; thence MHG., MLG., Du. *purper*, Ger., Da., Sw. *purpur*. L. *purpura* was an early ad. Gr. *πορφύρα* name of the shell-fish or whelk which yielded the Tyrian purple, hence the purple dye, and cloth dyed with it. The last is the earliest sense in Eng. (Cf. also Porphyry.)

OE. *purpura* was only a sb., the adj. or attrib. use being expressed by the genitive *purpuran*, or later by a dupl. adj. *purpurene*: cf. OHG. *purpurîn* in Otfrid. The wearing down of either of these gave the verb a *purpre* and OE. with dupl. *purpile*, an attrib. and, at length, adj. forms. A similar phenomenon appeared in OHG., in the tendency to treat the genitive *purpurdes* as an adj.]

Purse (pɜːs), *sb.* Forms: see below. The initial *p* for *b* is not certainly explained: influence of OE. *pusa*, *pusu*, OE. *pos* bag, has been suggested. As to the loss of the final vowel, if the word was taken as a strong feminine, it would naturally have the form *purs*, as obliquecases *purse*. L. *bursa* (*bursæ*), a. b. The officer on board a ship who keeps the accounts, and usually has charge of the provisions.

In the Royal Navy the purser was originally the commissariat officer of the ship, but not the paymaster of the crew (who were paid at the end of the voyage or commission). In 1805, by Act 6 Geo. IV, c. 26, a portion of the wages of the crew was permitted to be paid to them monthly, and the duty of making these payments was assigned to the purser, who in 1840 was officially designated 'Paymaster and Purser'. In 1852 the title was changed to 'Paymaster'; and the officer's duties in regard to money transactions on board ship were largely amended. In modern passenger-ships, the purser is the head of the stewards' department, and has general superintendence of the passengers and their comforts and requirements, checks their tickets, issues those taken on board, etc.

Pusgrim (*pə́sgrim*). [f. the name of Dr. E. B. Pusey, 1800–82, professor of Hebrew and Canon of Christ Church at Oxford + -ism.] A name given by opponents to the theological and ecclesiastical principles and doctrines of Dr. Pusey and those with whom he was associated in the 'Oxford Movement' for the revival of Catholic doctrine and observance in the Church of England which began about 1833; more formally and courteously called Tractarianism. Now little used.

The 'Pusgrim' name appended to No. 18 (cf. Dec. 1833 on Fasting) of the *Tracts for the Times*, and, of the series, seven were written by him. His academic and ecclesiastical position gave great weight to his support of the movement, and especially associated his name with it.

1836 Stephen in *Ann. R. T. L.* (1846) 116, Calvert, an Oriel man, a contemporary and friend of Froude's, has quite opposed to Pusgrism. 1840 Hist. Can. Bickersteth *Rem.* I. 424 Puseyism is very far from being at one in principle with Romanism. It is clearly a conservative movement towards ancient doctrine—while Romanism has a principle, a life, an aim of its own. 1893 Lilburn, etc. *Life Pusey* II. 139 It was apparently during the year 1840 that the use of the word 'Puseyism' became widely popular.

So **Pu seyist** = Puseyite; also **Puseyi'stic**, **Puseyi'stical** *adjs.*, of or pertaining to the Puseyites or Puseyism. (All hostile terms.)

1842 Wharton in *Life* (1893) 163 Oxford...has at present two-thirds of the steady reading men, Rahbonists, i.e. Puseyists. 1850 Ld. Ellenborough *Lett. to Jane*, I heard the words 'Newmanite' and 'Puseyite' in one and another conversation between two parsonesses. 1850 Disraeli *Lett. to Hon. in Corr. to Sister* (1886) 250 Biting the high Protestant horse, and making the poor devils of Puseyites the scapegoats.

Put (pʊt), *a.*[1] Pa. t. and pa. pple. **put** (pʊt). Forms: see before. [Late OE. *putian* (? *pūtian*), represented *c* 1040 by the vbl. sb. *putung* (? *pūt-*), FUTTING; thence early ME. *pūten* and ? *putten*, later *puttien, putt, put.* While this, late OE. and *putian* (11th c.), ME. *pūtien* (see PUTE *v.*), and *putten*; also, OE. *pūtian* (repr. by *pūtan dī* in the OE. Chron., MS. F. (12th c.), anno 796, and *dī dpūtan*, put out, thrust out, Numbers xvii. 14), which app. gave southern ME. *puuten, puyte* (= *pūte*), and may even have been the source of the late ME. *putten, pitten, pyt, pit.* Prof. Sievers thinks that the ME. shortening of the vowel was carried over from the pa. t. and pa. pple. *pytte, putte* from *pyt-te, pit-te.* The normal conjugation was pa. t. *put-te, now put* (*ot, out*), in ME. and early mod. Eng. also *puttede, putted*; pa. pple. ME. *yput, iputte* and *putt, now put*, also in 14–16th c. *puttud.* But in Sc. and north Eng. dialects, *put* (or rather its northern form *pyt, pit*), has been from the 14–16th c. conjugated as a strong vb., with pa. t. *put*, pa. pple. *putten* or *pitten* (also in Eng. dialects *putted*); and perhaps the southern *spitte* also arose out of **spitten*. With these compare the northern infinitive of HIT, *hat, hatten* or *hitten.* The variant *pet, pett*, occurs as an existing dialect form, besides carrying in a differentiated form and sense as PUTE. The differentiated vb. PUT[2], PUTT (*pat*), used in *golf*, and in Sc. also in 'putting the stone', is conjugated *putt, puttet, puttud*, and is thus quite distinct in Sc. from *pit, pat, pattin*, as well as from the ordinary Eng. *put, put, put.*

For the earlier history evidence is wanting, but the various forms appear to be parallel formations from a stem *pŭt-*, whence app. also Du. *putte* to pat, put (in) but this appears to Kilian only from the 17th c. Rietz gives a southern Swedish *putta* (with variants *pitta, pytta*) in two senses: (1) to roll, as a child in sledging to strike, knock or push, *gerdtjen i väg* = *skicka verdan*, *stilla bort*, 'putta i hop-stan' (to put out of the way or to oneself, put away), 'put in the pocket'. The Welsh *pwtio* and Gaelic *put* are from Eng. ME. had also a vb. *putten, pitten* (see PUTE), which was synonymous with *put*, and which occurs as a variant readingfor 13th c. MSS., but could not be formally relisted. It became obs. (at least in the senses in question) before 1500. In the sense 'strike with the head or horns', ME. *pytte* was in early use synonymous with *butten, Butt* v.[1], by which it has been superseded in literary English; but some dialects retain *put* in this sense.]

II. To move (a thing or person) physically into or out of some place or local position.

The most general word for this sense, which cannot be so simply expressed by any other word or phrase, and which is more or less implied, literally or metaphorically, in nearly all the other senses that are still in use. The original notion of 'thrust', 'set or lower with some force' is still traceable in some combinations, often followed by *into* or *to*.

† **Puttock**[1], *Naut. Obs.* [Origin obscure: see below.] The original name of the small or short shrouds connecting the lower shrouds with the top; also, where there is a top-gallant mast, the similar set connecting the topmast shrouds with the top-gallant top. After 1700 usually called **puttock shrouds**, and now *futtock-shrouds*, from an erroneous confusion of the word with FUTTOCK in the latter half of the 18th c.

a 1625 *Nomenclator Navalis* (Harl. MS. 2301) 100 *Puttocks*, are the small Shrowdes which goe from the Shrowdes of the Main, Fore and Mizen masts and also to the Topmast shrowdes, if the Topmast have a top gallant yard, the use whereof is to goe of the shrowdes into the Tops, for when the shrowdes come more upp to the mast they fall in so much that otherwise they could not get into the Tops from them. fig. 1788 SHADWELL *Pict. Pic.* Irish, Expressing his hope that..he should be able to surmount the puttock-shrouds of despair, and get aloft to the main-cross of Usual's good graces.

[*Note.* The form *puttock* was regularly used down to 1750 at least; but after that date it appears to have been, from ambiguity of sound, confused with FUTTOCK, the name of the middle timbers of the ship's frame, with which the *puttocks* had no manner of connexion. Hence in Falconer's *Marine Dict.* 1769, and 1771 in all later works, *puttock* is replaced by *futtock*; in the combinations given in FUTTOCK 2, *futtock-hole*, *-hoop*, *-plate*, *-rigging*, *-shroud*, *-staff*, *-stave* belong to this erroneous substitution of *futtock* for *puttock*. As *futtock* was prob. orig. *foot-hook*, it has been suggested that *puttock* was = *putlock* (of which a form *puttock* occurs in 1596): but nothing in the sense appears to confirm this supposition. Some elusive use of FUTTOCK[1] has also been mentioned. More probably it is connected with DIAL. *putting*, applied in 1615 to the chains of the main shrouds, while *mast-putting* in 1626 renders F. *jumelles de hune*, the puttock-shrouds. Cf. E.Fris. *putting* (cf. *-s*, *-es*), Ger. *putting* or *pütting* (-s, -es), Du. *putting* 1598, Sw. *pütting*, the iron chain or chains by which the shrouds of the masts are secured to the ship's sides, the chains of the dead-eye; Ger. *puttingtaue*, Du. *putting mantel*, Sw. *pättingsmast* = "puttock shrouds". [*Note.* For the etymology of *puzzle* the first question is the relation of the *sb.* and *vb.* The *vb.* has been held to be derived from the *sb.*, and the latter viewed as an aphetic form of APOSTLE or OPPOSE. But the chronology of the words, and still more the consideration of their semi-history, seem to make it clear that the verb came first, and that the *sb.* was its derivative. In the light of this, the *vb.* has been referred to POSE *v.*[1], as a modification or other derivative formation, as to *sand*, *cumb*. This is phonetically possible: cf. *weasel* from *wese*. But there are serious difficulties in the signification. Of the earlier sense of *puzzle*, as seen in the examples under 1 a above, no trace appears in the original sense of *pose* and *oppose*; to examine by putting questions; and it is only the derivative senses 2 of *pose* and 1 c of *puzzle* that come into contact. Thus their relative senses to be that of two words originally distinct, which in no sense either cause have subsequently attracted each other. *Puzzle* was possibly the same verb of which the pp. *pozzled*, *pozzeled* lasts late in the 14th c., app. in the sense 'bewildered, confused, confounded', and which, staving with *foozled*, i. e. *bedrid*, *Hermaph.* was pass. participial (*pot-bel*, which would regularly give by rime (*pot-bel*, *hose pot-bel*). The rare appearance of the verb during the intervening 200 years might be owing to its being one of the colloquial words which cause less literary use in the 16th c. This is however conjectural and, even if true, leaves the ulterior derivation still to seek. (A verb of similar form appears in late OE. *pozlian* 'to pick out best pieces of food' (Sweet). = Du. *pozelen* to pick, to gabble, LG. *pozeln*, *pozzeln*, Norw. *pozlast* 'to it is difficult to see in its sense any connexion with that of 'puzzle'.])

But this hybrid origin was, of course, impossible for the Greek word, and the name has been variously taken as meaning 'fire-thorn' (A. *πῦρ* fire + *ἄκανθα* thorn, and considered to be appropriate to the modern pyracanth, from its profusion of scarlet or flame-coloured berries. 3. Specific technical applications.

a. *Anat.* Applied to certain structures of more or less pyramid-like form, esp. to certain muscles in the abdomen, and in the nose (both often denoted by the L. *pyramidalis* used absol., sc. *musculus*). Also, Pertaining to or connected with the pyramids of the medulla oblongata, as in *pyramidal tract*, a tract of motor nerve-fibres in the spinal cord. Also *Path.*, applied to a form of cataract in which the capsule of the crystalline lens is opaque and prominent at its centre.

Ch.* 83/1 Other native Orchises, such as...the Pyramidal Orchis...less easy flower to a garden, but no less to improve.

5. *Arithm.* Applied to the several series of numbers, each beginning with unity, obtained by continued summation of the several series of POLYGONAL numbers; so called because each of these numbers, represented (e. g.) by balls, can be arranged according to a certain rule in the form of the corresponding pyramid (on a triangular, square, or polygonal base).

Thus the series of triangular numbers, 1, 3, 6, 10, 15, 21... gives, by summation, of successive terms, the series of *triangular pyramidal* numbers 1, 4, 10, 20, 35, 56...Similarly from the series of square, pentagonal, etc. numbers are obtained corresponding series of pyramidal numbers. The pyramidal numbers constitute the second generation called the *third* order of figurate numbers: see FIGURATE *gen.* a. 3 b. The term was formerly extended (with ordinal numbers) to the succeeding orders of figurate numbers, each obtained similarly from the preceding by continued summation: see 1729 in b. In quot. 1874 erroneously used.

1672 Jonas *Arithl.* (1696) 161, this is called the first Pyramidal Number; for the Units therein may be so placed, as to represent a Pyramis. 1729 Hutton *Math. Dict., Pyramidal Numbers*, are the sums of polygonal numbers, collected after the same manner as the polygonal numbers themselves are found from arithmetical progressions. 1826 — Course *Math.* I. 224 Cubonic r. contains the sum of the triangular numbers, that is, the first unequal in a triangular pile, commonly called pyramidal numbers.

2. Any one of the class of explosive compounds, including gun-cotton, produced by treating vegetable fibre with nitric acid, or with a mixture of nitric and sulphuric acids; chemically, they are nitrates of cellulose, $(C_6H_{10}O_5)_{10}$, in which a varying number of OH groups are replaced by ONO_2 groups. Thus, gun-cotton is *cellulose trinitrate* $(C_6H_7(NO_2)_3O_5)_{10}$. A solution of soluble pyroxylin forms COLLODION.
